*Note: An update was made on the lodging units in the 67 municipalities in which 805 units were identified with a total of 23,471 rooms. This update made possible to determine the category, which consists of 1 to 5 stars. As a result, a change was made to the current methodology, which consists in separating visitors who stay in 3-5 star lodging that will be considered as tourists, and those who stay in 1-2 star lodging will be considered as visitors. This change was made in order to have a more accurate number of visitors and the economic distribution they generate in each region.

The passenger is any person transported by any means of transportation (excluding the driver) and who is traveling from one point or location to another.
